A GOOD GUESS.

YOUNG doctor settled in a country town and hung out his "shingle." After waiting two weeks for a patient he was awakened one night by an old farmer who wanted him right away for his boy who was stricken with a severe pain in the region of his stomach.

The young M. D. hastened to the house and found the boy lying on the bed in evident pain and surrounded by the family and neighbors. He looked at the patient for a moment, then, wishing to impress them all with his superior knowledge of medical terms, he groaned out his chest and said:

"This should cause you no alarm. It is nothing but a corrugated epiphysitis, antipneumonically emanating from the germ of the animal refrigerator, producing a prolific source of irritability in the peritoneal epidermis of intestinal profundity."

The farmer looked at him a moment and replied: "Now that's just what I said it was, but my wife 'towed' it was worms!"—September National Monthly.

We buy our diamonds right and sell them right.

An Argument

The tariff bill which is now in conference and will become law before October, will certainly increase the price of DIAMONDS 15 to 20 per cent. We are selling diamonds at the present time at \$100.00 that will most surely cost you \$115.00 this fall. A \$125.00 diamond bought now will be \$145.00 later on, and so all along the line. So it is plain that now is the time to buy.

A DIAMOND is the one thing that you can buy and use with the assurance that if at any time you want to sell it, it will be worth more than you paid for it.

We buy our diamonds right and sell them right.

Drop in our store and talk it over.
